A STANDARDISED TEST ASSESSING IMPORTANT SKILLS FOR JOB READINESS IN NURSING

The GETS Nurses Skills Test is a structured assessment designed to evaluate key workplace competencies essential for nurses. It measures current work-place skills widely recognised as critical by employers across the industry. Unlike traditional academic examinations, this test provides an evidence-based benchmark of employability skills, offering candidates insights into their strengths and areas requiring development. The assessment generates a detailed report with quick results with personalised feedback, enabling individuals to align their skill profiles with global standards. By undertaking the GETS Nurses Skills Test, job seekers can make informed career decisions and demonstrate readiness for roles in the field of nursing and employers can ensure the employees profile matches job requirements.

GETS Job Skills Test Assesses

Clinical Competence & Procedural Accuracy - basic procedures, medication support, sterile techniques, protocol adherence

Patient Assessment & Clinical Monitoring - vital monitoring, symptom awareness, accurate recording, clear reporting

Healthcare Communication & Patient-Centred Interaction - clear instructions, active listening, empathy, patient guidance, professional conduct

Infection Prevention & Ethical Clinical Practice – hygiene compliance, aseptic steps, PPE use, contamination control

Clinical Resilience & Emergency Responsiveness - emotional control, task prioritisation, quick response, timely escalation, Basic Life Support / CPR

Text Sources
