# EVERYONE SHOULD BE VALUED FOR THEIR UNIQUENESS

## The iSKiL Programme for Students

The iSKiL (International Skills & Knowledge Integrated Learning) Programme is a meticulously designed co-curricular programme for students from classes 5 to 11.

The programme integrates skills development within the context of curricular subjects, enabling students to excel in a rapidly evolving world. Backed by three years of research and trials, this comprehensive programme is aligned with the Common International Framework of Reference for Future Readiness (CIFR), which defines over seventy skills, competencies and abilities categorised into Nine Dimensions across eight levels, starting at A1 for elementary-level students and progressing to D2 for individuals with expert-level skills and knowledge.

Zamit uses a proprietary Artificial Intelligence (AI) driven model based on its proprietary concept of Measure-Improve-Monitor (M-I-M) when delivering the iSKiL Programme and provides the outcome as a ZQ (Zamit Quotient) score.

**Maximise your potential with the Zamit Quotient!**

# The Benefits of the iSKiL Programme

1. develops and improves 21st-century skills
2. improves performance in curricular, co-curricular and extra-curricular activities
3. develops learning power for academic excellence
4. develops and improves communication skills including active listening & public speaking.
5. facilitates the process of becoming a smart, self-directed and lifelong learner
6. assists in preparing for college admissions and other endeavours

# The proprietary M-I-M model

**Step 1: MEASURE**

- the analysis of over 70 skills with a ZQ score for each of the Nine Dimensions, mapped to the CIFR

**Step 2: IMPROVE**

- 26 trainer-led sessions of 35 minutes each
- guided-learning activities and engagements for classes 5-11
- formative assessments, assignments and project work engaging internships

**Step 3: MONITOR**

- ZQ Measurement & Analysis
- impact analysis at individual level, class level and school level

# The Highlights of the iSKiL Programme

- **Suitability:** designed for students of classes 5 to 11 as a co-curricular programme
- **Duration:** 60 hours for classes 5 & 6; 54 hours for classes 7 & 8; 48 hours for classes 9 & 10 and 42 hours for class 11
- **Delivery:** at school, face-to-face during school hours, or online, delivered by Zamit trainers or by school teachers trained and certified by Zamit
- **Global Framework:** derived from the CIFR's Nine Dimensions, using Zamit's proprietary AI-driven Measure-Improve-Monitor model – the Gold Standard for Future Readiness
- **Measurement:** AI-driven and adaptive measurement and analysis of over 70 skills of the CIFR's Nine Dimensions across eight levels, starting at A1 for elementary-level students and progressing to D2 for individuals with expert-level skills and knowledge, resulting in a ZQ score
- **Improvement:** 26 trainer-led sessions of 35 minutes each and about 35 hours of guided learning that include developmental activities, quizzes, competitions, videos, podcasts, reading material, formative assessments, assignments, project work and internship opportunities to help develop and improve over 70 skills in the context of subject learning
- **Monitoring & Impact analysis:** continuous monitoring of engagement with an impact analysis to track performance and improvement at individual, class, school and country level
- **Learning Power:** helps build learning power – the key to academic excellence and becoming a self-directed, lifelong learner
- **Portfolios:** provides a platform to create, update and maintain a personal portfolio of academic and non-academic achievements
- **ZQ Mapping:** ZQ mapped to the CIFR's Nine Dimensions, which includes the skills, traits, aptitudes and competencies recommended by both the NEP 2020 and the International Baccalaureate (IB)
- **Global Standards:** mapped to the Common International Framework of Reference (CIFR, a gold standard for benchmarking Future Readiness Skills) and certified by QAI, UK

## Unlock your potential with ZQ.

# ZQ (Zamit Quotient) and its Nine Dimensions

The Zamit Quotient (ZQ) is the world's first AI-driven future readiness indexing system mapped to the CIFR. In cooperation with QAI, UK, Zamit identified over 70 skills, traits and abilities essential for future readiness. These were then classified into nine dimensions. Aligned with India's National Education Policy 2020 and with the skill sets developed in International Baccalaureate schools, ZQ guides individuals towards success in the 21st century and beyond. ZQ harnesses the power of a proprietary AI to unlock a student's true potential and to help them thrive in an ever-changing world. ZQ is the Gold Standard of Future Readiness.
